Vorbemerkungen.

1. Für die Aussprache der englischen Wörter im englisch-deutschen Teile ist ein phonetisches System angewandt, das die Geltung der Laute möglichst genau wiederzugeben versucht. Näheres findet man in der Tabelle über die englische Aussprache S. VII und VIII. Ein Verzeichnis der bei diesem System angewandten Zeichen findet sich am Fuße jeder Seite des englisch-deutschen Teiles.

2. In dem Texte des deutsch-englischen Teiles ist eine vollständige Bezeichnung der Aussprache der deutschen Wörter nur ausnahmsweise hinzugefügt, besonders bei den Fremdwörtern mit einer von der deutschen abweichenden Aussprache. Lange Vokale sind bezeichnet (so: ā), ebenso in allen deutschen Wörtern der Hauptton durch ´. Die Trennung der Silben in den deutschen Wörtern des deutsch-englischen Teiles will dem englischen Leser für den schriftlichen Gebrauch des Deutschen dienen.

3. Der Wortschatz ist in beiden Teilen beträchtlich vermehrt worden, so daß man keine der wichtigeren Redensarten der Umgangs- und Schriftsprache, noch die wissenswerteren technischen Ausdrücke darin vermissen wird. Für die Aufnahme der mehr der Haus- und Familiensprache, sowie bestimmten Gesellschaftskreisen angehörigen Wörter und Wendungen, ist meist deren Verbreitung maßgebend gewesen; dasselbe gilt von der Berücksichtigung vulgärer und veralteter Ausdrücke.

4. Im deutsch-englischen Teile sind allen nicht-zusammengesetzten Substantiven die Formen des Genitiv Singular und des Nominativ Plural beigefügt worden, den zusammengesetzten nur dann, wenn sie in ihrer Flexion oder im Gebrauche des Plural von jenen abweichen. Bleibt das deutsche Substantiv im Genitiv oder Plural unverändert, so ist dies durch – bezeichnet, während 0 besagt, daß eine Pluralform ungebräuchlich ist oder selten vorkommt. Beisp.: Gesprä´chigkeit, f. (–, 0), das heißt: der Genitiv Singular dieses Wortes lautet wie der Nominativ und ein Plural ist nicht vorhanden.—Die neutralen Verba (v. n.), welche mit „sein“ verbunden werden, sind durch (ſ) gekennzeichnet; wo diese Angabe fehlt, versteht sich die Verbindung mit „haben“ von selbst; (h, ſ) bedeutet, daß beide Hilfszeitwörter zulässig sind.

5. Im Deutschen ist die neuere Rechtschreibung angewandt, die frühere aber in den Fällen berücksichtigt worden, wo die Auffindung der betreffenden Wörter Schwierigkeiten bereiten würde.

6. Das einem jeden Exemplare beigefügte Buchzeichen gestattet dem Leser, sich jederzeit aufs bequemste über die Bedeutung der Abkürzungen zu unterrichten.

Prefatory Notes.

1. A phonetic system of showing the pronunciation of English words has been introduced into the English-German part, of which a full explanation is given on pp. VII and VIII. For convenience in reference, a list of the signs used in this system is repeated at the foot of every page of the English-German part.

2. In the text of the German-English part pronunciation is only given in the case of such germanised words as are irregularly pronounced.—Long vowels are marked (thus: ā), and all German words are spaced off into syllables to show the points at which they may be divided in writing, an ′ being placed after and above the syllable on which the accent rests in pronunciation. These are matters of great use and importance, and form a special feature of this work.

3. Phrases of either language are translated, whenever possible, by their equivalent (or nearest equivalent) phrase in the other, as well as (where necessary) by their literal meaning.

4. The plurals and genitives of German non-compound substantives are given in brackets in the text of the German-English part. Where the German noun remains unaltered in the genitive or plural, it is shewn by the sign –; while the sign 0 signifies that a plural form is either non-existent or seldom used. Ex. Geſprā′chigkeit, f. (–, 0), the genitive being the same as the nominative and a plural form non-existent. Such neuter verbs as are conjugated with „ſein", have (ſ) affixed to them, those conjugated at will with either „ſein" or „haben" are marked (ſ, h); the remaining, being conjugated with „haben" only, are not specially marked.

5. In the German-English part the new spelling is adopted, but the old is also given in all cases where any difficulty might be encountered in finding the word in the text.

6. For purposes of easy reference a slip or "book-mark" is enclosed in each copy, containing a list of the abbreviations employed throughout the work.

Erklärung der Aussprachebezeichnung im englisch-deutschen Teile.

I. Vokale in betonten Silben.

ɑ bezeichnet den Vokal im englischen *far*, oder in der ersten Silbe des norddeutschen **Vater**.
ɒ bezeichnet den Vokal im englischen *but*; kommt etwa einem dunklen, deutschen **a** gleich.
æ bezeichnet den Vokal im englischen *man*; lieg! zwischen **a** in **Mann** und **e** in **Bett**.
e bezeichnet den Vokal im englischen *pet*; kommt dem deutschen **e** in **Bett** sehr nahe.
əə bezeichnet den Vokal im englischen *fur*; am nächsten kommt etwa diesem Laut der Vokal im französischen **heure**.
i bezeichnet den Vokal im englischen *sit*; norddeutsches **i** in **bitten**.
ī bezeichnet den Vokal im englischen *feel*; deutsches **ie** in **Bier** mit nachklingendem **j**.
o bezeichnet den Vokal im englischen *not*; kommt dem deutschen **o** in **Roß** sehr nahe.
ó bezeichnet den Vokal im englischen *all*; nahe steht der Vokal im französischen **mort**.
u bezeichnet den Vokal im englischen *put*; etwas kürzer als das deutsche **u** in **Buch**.
ū bezeichnet den Vokal im englischen *rule*; deutsches **u** in **Bube** mit deutschem **w** als Nachklang.

II. Vokale in unbetonten Silben.

ə bezeichnet den Vokal in der zweiten Silbe des englischen *porous*; gleicht dem Laut des tonlosen **e** im deutschen **hatte**.
ĭ bezeichnet den Vokal in der zweiten Silbe des englischen *happy*; ein tonloses, dem **e** sich nähherndes **i**.
ŏ bezeichnet den Vokal in der ersten Silbe des englischen *omit*; ein stark verkürztes, geschlossenes deutsches **o**.

III. Diphthonge.

aĭ bezeichnet den Diphthong im englischen *line*; der Diphthong im deutschen **Leine** ist ihm ziemlich gleich.
au bezeichnet den Diphthong im englischen *mouse*; der Diphthong im deutschen **Maus** ist nicht ganz derselbe, aber weicht im ersten Elemente ziemlich stark ab.
ēĭ bezeichnet den Diphthong im englischen *hate*; halblanges deutsches **e** mit flüchtig nachklingendem **i**.
eə bezeichnet den Diphthong im englischen *air*; deutsches **e** oder **ä** mit nachklingendem **ə** (s. oben).
ōu bezeichnet den Diphthong im englischen *go*; halblanges deutsches **o** mit flüchtig nachklingendem **w**.
oĭ bezeichnet den Diphthong im englischen *boy*; klingt wie bühnendeutsches **äu** in **Bäume**.

IV. Konsonanten.

s bezeichnet den anlautenden Konsonanten im englischen *so*; klingt wie das **ß** im deutschen **reißen**.
z bezeichnet den anlautenden Konsonanten im englischen *zone*; klingt wie anlautendes **s** im deutschen **Sohn**.
š bezeichnet den anlautenden Konsonanten im englischen *ship*; ziemlich gleich dem deutschen **sch** in **Schiff**.
ž bezeichnet den inlautenden Konsonanten im englischen *vision*; ziemlich gleich dem französischen **j** in **jour**.
th bezeichnet den anlautenden Konsonanten im englischen *three*.
dh bezeichnet den anlautenden Konsonanten im englischen *than*.
ŋ bezeichnet den auslautenden einfachen Konsonanten im englischen *ring*, der gewöhnlich mit *ng* bezeichnet wird.
w bezeichnet den anlautenden Konsonanten im englischen *we*; ein Halbvokal, der einem flüchtigen deutschen **u** ähnlich ist.
v bezeichnet den anlautenden Konsonanten im englischen *vine*; klingt wie das norddeutsche **w** in **wie**.

r bezeichnet den anlautenden Konsonanten im englischen *ring*; der Laut ist schwächer als das deutsche Zungen-r. Orthographisches r verstummt nahezu oder ganz in der südenglischen Aussprache im Auslaut und vor anderen Konsonanten. Auslautendes orthographisches r ist aber deutlich zu sprechen vor antretender vokalischer Endung oder vokalisch anlautendem Worte.

Die übrigen Konsonanten lauten wie im Deutschen.

Die Tonsilbe eines Wortes ist am Ende mit ′ bezeichnet.

Abkürzungen.
Abbreviations.

a. = adjective, Adjektiv.
adv. = adverb, Adverbium.
Am. = Americanism, Amerikanismus.
Anat. = anatomy, Anatomie.
Ar. = arithmetic, Arithmetik.
Arch. = architecture, Architektur.
art. = article, Geschlechtswort.
Astr. = astronomy, Astronomie.
Bibl. = biblical, Bibelsprache.
Bot. = botany, Botanik.
c. = conjunction, Konjunktion.
Chem. = chemistry, Chemie.
Com. = commerce, Handel.

v. imp. = verb impersonal, unpersönliches Zeitwort.
v. ir. = verb irregular, unregelmäßiges Zeitwort.
v. n. = verb neuter, intransitives Zeitwort.
v. refl. = verb reflective, reflexives Zeitwort.
v. reg. = verb regular, regelmäßiges Zeitwort.
vulg. = vulgarly, volkstümlich.

Throughout the Dictionary the *tilde* (~) stands for the main word at the beginning of each separate article. This does not apply to the mode of showing German genitives and plurals, for which, as well as the sign 0, see page V.

Before flexional endings and suffixes, and in compounds, the sign – replaces the main word; *e. g.* gelb, adj., –lich, adj. & adv., Abend: –mahl, n., etc.

The various equivalents in one language for the corresponding different meanings of a given word in the other, are separated by the sign ‖.

Das Zeichen ~ ersetzt das Stichwort an der Spitze des betreffenden Artikels. Dies gilt nicht für die Bezeichnung des Genitiv Singular und des Plurals deutscher Worte. Hierüber, sowie über das Zeichen 0, vergleiche man S. VI.

Vor Flexions- und Ableitungsendungen und in Zusammensetzungen steht das Zeichen – an der Stelle des Stichworts, z. B. **useful**, adj., **–ly**, adv.

Das Zeichen ‖ dient dazu, die deutschen, bez. englischen Äquivalente für die verschiedenen Bedeutungen eines englischen, bez. deutschen Wortes voneinander zu trennen.

GERMAN-ENGLISH DICTIONARY

A.

Aal, m. (–[e]s, –e) eel.
Aal'fang, m. eel-catching.
aal'för mig, a. eel-shaped.
Aar, m. (–[e]s u. –en, –e u. –en) eagle.

brin g'en	ich brin g'e	ich brach'te	ich brächt'e	bring(e)	ge bracht'
den k'en	ich den k'e	ich dach'te	ich dächt'e	denk(e)	ge dacht'
din g'en	ich din g'e	ich dang	ich ding'te, ich dün'ge **	din g'e	ge dun g'en *
dre'ſchen	ich dre'ſche, du driſch(e)ſt, er driſcht	ich drāſch (droſch)	ich drä'ſche **	driſch	ge dro'ſchen

*) The German verbs and tenses marked by one asterisk (*) are more commonly used in their regular form.

**) The Imperfects of the Subjunctive marked by two asterisks (**) are used in the higher style only; in spoken German the Conditional is, though incorrectly, used instead, *e. g.* „Ich würde befehlen" instead of „Ich beföhle".

***) The Imperative forms ending in e are grammatically incorrect, although they are generally used.

†) The verb „ſich befleißen" is not in use; in its stead use the regular verb „ſich befleißigen".

††) The verb „bewegen" in its concrete signification: „einen Gegenſtand bewegen" is regular. „Die Erzählung hatte ihn tief bewegt". but „durch den Bericht ward er bewogen, dem Manne zu helfen".

*†) „bedingt" is adj.

Infinitive	Indicative Present	Indicative Imperfect	Subjunctive Imperfect	Imperative	Participle Past.
drin g'en	ich drin g'e	ich drang	ich drän g'e	dring(e)	ge drun g'en
